Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. This office action is in response to Applicant's amendment filed on 24 October 2005.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5 rejected under 35 U.S.C. 102(b) as being anticipated by Gramespacher (DE 39 13 139 C 2).
4. Per claim 1, Gramespacher discloses a workpiece seat comprising an elongated housing 6; a spindle 7 rotably supported in the housing 6, said spindle 7 having a working end; an electric direct drive 10 for the spindle 7 comprising a rotor 10a fixed on the spindle 7 and a stator 10b fixed on the housing 6; a clamping means 14 provided at the working end of the spindle 7, said clamping means 14 being shaped and configured for fixing a bar-shaped workpiece in the spindle 7; a connection unit 15a/b provided at the rear part of the housing 6 for energy supply; and a fixing means 21 for fixing the spindle in the housing by contacting the working end of the spindle, said fixing means 21 being formed as a compact part.

Art Unit: 3722

5. Per claim 2, Gramespacher discloses a front side spindle bearing arrangement 9.
6. Per claim 3, Gramespacher discloses the fixing means 21 arranged on the front end of the spindle before the front-side spindle bearing arrangement 9.
7. Per claim 4, Gramespacher discloses the fixing means 21 comprising at least one fixing element 21 at least partially surrounding the spindle 7, and directly acting on the peripheral surface of the spindle 7.
8. Per claim 5, Gramespacher discloses the fixing element 21 arranged in the housing part 6 such that it can be moved by a driving force provided by high pressure pistons 26.

Allowable Subject Matter

9. Claims 6-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

10. Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.
11. For the reasons as set forth above, the rejections are maintained.

Conclusion

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
